

Biokonformes Raumklima: Schönwetterfeld für die Zukunft gesichert

Atmospherics in Space

Aus der Natur kopiert: Die nachweislich entspannende, stochastische Strahlungform bzw. Wechselfelder bei schöner Hochdruckwetterlage hineinkopiert in **Repliziergeräte:**

Verdeckung der atmosphärischen Störstrahlen gegen Befindlichkeitsstörungen der Wetterfähigkeit & Elektrosensibilität.

Grundlagen:

F. M. König Doktorarbeit 2004* sowie eine kostspielige, gesponsorte Studie (2012-2014) um Wirkweise bei biotropen Wetterlagen sowie u.a. Wetterfähigen; mehr Details bzw. Veröffentlichungen siehe Flyer-Innenseite und "peer-reviewed papers" im WEB unter www.fk-e.de/news sowie im "Japan Journal of Medicine" (2019).

Mega-Produkt-News 2021

Wir wollen den Lebensraum für (elektrosensible) Mensch & Tiere draußen wie drinnen in z.B. Kranken- oder Wohnhäusern, Büros sowie Fortbewegungsmitteln bio-konformer oder erträglicher gestalten. Eben auch deswegen wurden mittels neuwissenschaftlicher Hintergründe weltweit einzigartige Passiv-Systeme (sog. MHR & SHLS) zur Wirkneutralisierung technischer, elektro-magnetischer Wechselfelder (Technics) für den Alltags-Gebrauch im Haus (siehe ganz rechts in Flyer) oder in Fortbewegungsmitteln entwickelt. Der Wirknachweis ist med.-physikalisch u.a. über "marginale Masse- / Gewichtsveränderungen" bei mindestens 6 µg und damit berechenbare Energie- / Krafteinwirkungen von > 150 kWh pro MHR/SHLS-Rohr möglich!! >> Nicht um sonst erhielten wir einen **AWARD 2016**:

Forschungsförderung vom Freistaat Bayern.

Sehen Sie einfach unter <http://www.fk-e.de/referenz.html> rein und Sie entdecken dort zudem zahlreiche, wissenschaftliche "Reviewed Papers" um diese MHR und SHLS, dass diese bis 98% Wirkung entfalten können; vgl. Zelltests nebenan rechts in der Flyer-Mitte. Dazu gehören ab 2021 zwei neue Produkte für unterwegs und speziell am Nahfeld-Sender = Mobiltelefon oder Laptop wie folgt:

2b.) Das portable UMHÄNGE-SHLS zu *€ 328,- für unterwegs in der City oder im Office / Studium / S-Bahn bzw. Zug usw.

2c.) Das exklusive MOBILE PHONE SHLS zu *€ 390,- direkt anschließbar per Kabel an die Headset- / Kopfhörer-Stecker-Buchse (dadurch maximal effektiv) eines Handies oder Laptops; siehe 3,5-er Klinkenstecker-Format, was je hersteller evtl. einen Adapter auf USB-C oder iPhone-Standard benötigt.

DARTSCH SCIENTIFIC GMBH
Institute of Cell Biological Test Systems

herewith certifies that the products named

**Multiple chamber cavity resonators
(MHR and SHLS)**

manufactured and distributed by

Florian M. König Enterprises GmbH, 82110 Germering, Germany

have been tested for their potential to neutralise unwanted cellular effects of electromagnetic alternating fields as emitted by DECT phones.

Test results

By using cultured connective tissue fibroblasts in several individual experiments with a variety of setups, we could demonstrate that the above mentioned multiple chamber cavity resonators are able to neutralise the cellular effects of emitted electromagnetic alternating fields up to 98 %. Thus, the devices can be recommended for individuals in order to reduce unwanted health effects of electromagnetic alternating fields emitted by devices such as DECT phones.
